Bringing light to life™

# The
Solar Powered "Fresh Air" Skylight
Deck and curb mounted

The Solar Powered "Fresh Air" Skylight features a solar panel that captures any available daylight and uses it to recharge a highly efficient, fully concealed, battery powered operator and control system. The battery powered operator is the power source that opens and closes the skylight. The solar panel serves as the charging source for the system.

No Leak warranty

The No Leak Skylight carries the 10-year installation warranty plus 20-years on glass, 10-years on product, and 5-years on blinds and controls.

VELUX flashing required to qualify.

The No Leak Skylight
• No Leak Promise • No Worries
Solar powered

With the help of the sun, you are able to bring fresh air into your home. The Solar Powered "Fresh Air" Skylight requires no wiring, and installs just like our other VELUX models.

Fresh Air

Adding fresh air and ventilation to your home is essential to better health and well-being.

10-year installation warranty

Introducing
Clean, Quiet & Safe glass

Ordinary glass: Water beads higher on rough surface of ordinary glass, causing more spots and greater cleaning needs.

Neat® glass: The smooth surface disperses water evenly, removing dirt more quickly and reducing water spots.
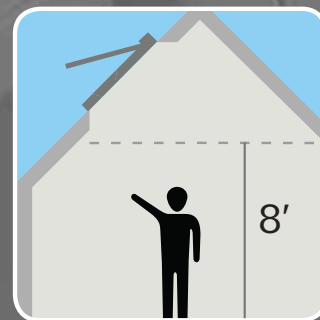

Clean

Features Neat® glass coating to keep your skylight cleaner longer, leaving skylights virtually spotless

Quiet

Reduce unwanted outside noise by up to 25% less than a standard double pane glass, and up to 50% less than a plastic skylight

Safe

VELUX recommends and building codes require laminated glass for out of reach applications

8'

How to order

With VELUX, there are several choices, no matter how the house and roof are constructed. Before getting started and to help make the best possible choice for your application, read the following steps:

1. Plan for delivery time

In the price guide we have supplied a continental USA delivery guideline to help you in planning projects. Please use the chart below to know when to expect delivery. Please note: large orders may be subject to additional lead times.

Continental USA delivery guidelines	Delivery
In-stock at regional warehouses – Allow 2 to 4 business days for shipment.	S
Trans-shipped from central warehouse – Allow 7 to 10 business days for shipment.	T
Not stocked; Manufactured on demand – Allow approximately 15 business days for shipment.	R
Not stocked; Manufactured on demand – Allow approximately 21 business days for shipment.	D
Not stocked; Manufactured on demand – Allow approximately 32 business days for shipment.	N
Sparks, NV, region ships 2 to 3 days, all other areas must call for availability	A
Sparks, NV and Broomfield, CO, regions ship in 2 - 3 business days, for other areas allow 15 business days	B
Ronkonkoma, NY, Greenwood, SC, Aurora, IL, Windsor, CT regions ship in 2 to 3 business days, for other areas allow 7 - 10 days	C
Greenwood, SC and Windsor, CT regions ship in 2 - 3 business days, for all other areas allow 7 - 10 days.	E
Greenwood, SC and Sparks, NV regions ship in 2 - 3 business days, for all other areas allow 7 - 10 days.	F

2. Product ordering codes

To order the correct product, you will need a product order number that may consist of up to three separate parts. Skylights and roof windows will have three parts while accessories and flashing may have two parts. These parts are the Model number(A), Size code (B) and Product code (C) if required.

VS - C01 - 2004
Model number (A)   Size code (B)   Product code (C)

VS Size code	14° - 85° 3:12 - 137:12		C01	C04	C06	C08	M04	M06	M08	S01	S06

Laminated LowE3	Aluminum	2004	·	·	·	·	·	·	·	·	·	S

3. Out of reach applications

We recommend, and most building codes require, laminated glass for out of reach applications.

4. Factory installed blind codes

If factory installed blinds are needed, please add blind code (D) to the order.

VS - C01 - 2004   +   CS00
Model   Size code   Product code   (D) Blind code

5. Ordering your product's accessories

Accessories are on page 30 and 31

6. Ordering your product

Online	http://dealer.velux-america.com	Hours of Operation: 24 hours per day, 7 days per week	The Dealer Direct Connect System allows a dealer to order products and perform routine inquiries 24/7 using real-time pricing and inventory availability by connecting to our system through the Internet.
Fax	1-864-943-2631	Hours of Operation: 24 hours per day, 7 days per week	If you would like, you can fax in your order any time.
Call	Residential 1-800-888-3589	Hours of Operation: Monday - Friday 7:30 a.m. - 8:00 p.m. (ET) Saturday 9:00 a.m. - 5:00 p.m. (ET)	If you have questions or would like to place an order on the phone, call our toll-free Customer Service Hotline.
Call	Commercial 1-888-878-3589	Hours of Operation: Monday - Friday 8:00 a.m. - 6:00 p.m. (ET)	If you have questions or would like to place an order on the phone, call our toll-free Commercial Customer Service Hotline.

Important new information

Instant light shaft
(ZZZ 234)

The VELUX Instant Light Shaft simplifies the installation of a skylight by eliminating the time and costs associated with the construction of a traditional drywall light shaft.

See page 14 for more information.

NEW
## Replacement kits for FS and VS

This replacement kit will be available for all sizes of VS and most FS* skylights. This will allow the installer to use a standard size VELUX VS or FS skylight on a non-standard opening while minimizing the amount of interior trim work needed.

Replacement kit (ZZZ 238) contents:

1. 4 pre-cut drywall groove filler pieces minimizes interior trim work needed.

2. 4 structural mounting brackets allows skylight to be used in applications with an oversized rough opening.

* Excluding FS A06, FS C12
See page 15 for more information.

Factory installed blinds for FS skylights
(Free installation with in-stock blinds)

Step 1: Select operation

Solar powered blinds
Add a factory installed blind for

30%
Federal tax credit on solar blinds

Manual blinds
Add a factory installed blind for

Solar blinds are not available for size A06

FS skylight factory installed blinds (solar and manual) are only available for the laminated LowE3 (2004) and tempered LowE3 (2005) and impact (2006 "T" only) product codes

Step 2: Select color and model

Room darkening - double pleated blinds

	White	Beige		Green	Charcoal	Grey
Solar code	CS00	CS01		CS42	CS41	CS43
Manual code	CH00	CH01		CH42	CH41	CH43

Allow 2 to 4 business days for shipment.

Allow up to 13 business days for shipment.

✓ **Room darkening** Blackout cloth with honeycomb structure.

✓ **Energy efficient** Aluminum coating inside improves the insulation effect.

✓ **Sleek design** Neat pleats and no visible cords.

Light filtering - single pleated blinds

	White	Classic sand		Cappuccino	Lovely latte	Misty brown
Solar code	FS00	FS01		FS33	FS32	FS31
Manual code	FH00	FH01		FH33	FH32	FH31

Allow 2 to 4 business days for shipment.

Allow up to 13 business days for shipment.

✓ **Light dimming** Softens incoming light.

✓ **Sleek design** Neat pleats.

Venetian blinds (Manual only)

	White
Manual code	PA00

Allow 2 to 4 business days for shipment.

✓ **Privacy and light control** Simply tilt the slats in any direction to adjust the angle and amount of incoming light.

✓ **Moisture resistant and easy to clean** The low-maintenance, moisture-resistant VELUX Venetian blind is perfect for bathrooms and kitchens.

New **Introducing new special order Blind Size C12** Available in all pleated colors.

Accessories page 30 - 31

Step 3: Calculate ordering code and price
Simply add the in-stock blind to the skylight

FS	-	C01	-	2004	+	CS00	=	Order Code
Model		Size code		Product code		Blind code		

Skylight price	+	Solar price / Manual price	=	Total price

Special order blinds available pages 29

New

Instant light shaft - ZZZ 234
- Works on all "box" type light shafts (Not flared)
- 16" standard depth (trim to actual on site)
- All other pieces are pre-cut to size to be site assembled
- 4" minimum spacing required around all sides if multiple skylights are installed
Must provide skylight size code when ordering.
Example order code: ZZZ 234 M02

Instant light shaft
Ready-made skylight liner for easy and airtight completion on deck mounted skylights
(Model ZZZ 234)

For 90° shafts

1.
2.
3.
4.
5.

The VELUX Instant Light Shaft simplifies the installation of a skylight by eliminating the time and costs associated with the construction of a traditional drywall light shaft.

1. Prefabricated light shaft assembly kit
2. Assemble moulding
3. Install mounting clips to skylight drywall groove
4. Measure and cut panels to proper depth and join to moulding
5. Align assembled light shaft to mounting clips and click to install

- No drywall, spackling, sanding and painting needed
- Works on all "box" type light shafts (Not flared)
- 16" standard depth (trim to actual on site)
- All other pieces are pre-cut to size to be site assembled
- 4" minimum spacing required around all sides if multiple skylights are installed

Smaller sizes: C01, C04, C06, C08, C12

Bigger sizes: M02, M04,M06, M08, S01, S06

Must provide skylight size code when ordering.

Example: ZZZ 234 M02

Replacement kits for FS and VS

This replacement kit will be available for all sizes of VS and most FS* skylights. This will allow the installer to use a standard size VELUX VS or FS skylight on a non-standard opening while minimizing the amount of interior trim work needed.

Replacement kit contents:

1. 4 pre-cut drywall groove filler pieces minimizes interior trim work needed.

2. 4 structural mounting brackets allows skylight to be used in applications with an oversized rough opening.

Replacement kit (ZZZ 238)

Sizes: C01, C04, C06, C08, D06, D26, M02, M04, M06, M08, S01, S06

Must provide skylight size code when ordering.
Example: ZZZ 238 M02

* Excluding FS A06, FS C12

Deck mounted skylight COMBI-FLASHING™ - EKL / EKW

14° - 85°
3:12 - 137:12

- Must specify vertical gutter spacing when ordering. May be from 2.5-in. to 12-in. in ½-in. increments. Combi-flashings with gutters 8-in. or wider have additional charges. Call for more COMBI-FLASHING™ options and pricing.

- Type EKL works with groupings on low-profile roofing materials such as shingles and shakes.

- Type EKW works with groupings on high-profile roofing materials such as tile or corrugated metal roofing. Only 4-in. spacing is available.

- Many other combinations can be made beyond what is listed in the pricing chart below. Call customer service for more information.

- Only the 2.5-in., 3-in., 3.5-in. and 4-in. gutters will be stocked; all other widths are special order only and carry a 15-day production time.

Ordering an in-stock blind for a skylight
(We ship within 2-4 working days; shipped separately when ordered with skylight)

(Step 1: Determine the model and size code of your skylight.

Model   Size

Locate the metal plate on your skylight or roof window by looking on the frame. You will need your model and size code. For additional blind information on products prior to 2010, please contact our customer service with your tag information. *

* Skylight manufactured prior to 2010 will require a ZZZ 232 accessory adaptor kit.

Step 2: Pick the operation of the blind

If you need a custom sized blinds made, please contact our customer service with your tag information: **1-800-888-3589**

Accessories

Instant light shaft
(ZZZ 234) **New**

Simplifies the installation of a skylight by eliminating the time and costs associated with the construction of a traditional drywall light shaft.

Smaller sizes: C01, C04, C06, C08

Bigger sizes: M02, M04, M06, M08, S01, S06)

Order code example: ZZZ 234 M02

Replacement kit
(ZZZ 238) **New**

1.) 4 pre-cut drywall groove filler pieces minimizes interior trim work needed.

2.) 4 structural mounting brackets allows skylight to be used in applications with an oversized rough opening

Sizes: C01, C04, C06, C08, D06, D26, M02, M04, M06, M08, S01, S06

Order code example: ZZZ 238 M02

Basic remote control
(KLI 110 US)

Basic and simple remote control with a radio frequency signal that allows the user to operate skylights and blinds from anywhere in the room.

Model number	$	Delivery
KLI 110 US	•	**S**

VELUX INTEGRA® control pad
(KLR 200 US)

Easy to use touch screen with a large display and descriptive icons that make it easy to operate individual products or groups of products.
Model number	$	Delivery
KLR 200 US	•	**S**

Battery backup
(KLB 100)

Provide limited operation of VSE, VCE skylights and electric blinds during power outages. The battery backup automatically recharges when power is restored.

Model number	$	Delivery
KLB 100	•	**S**

6' - 10' rod for operation of **manual skylights**
(ZCT 300) Models VS, VCM

Telescopic rod for manual operation of manual venting skylights and prior model sun screen accessories. Designed for accessories that fit skylights manufactured prior to 2010.

Model number	$	Delivery

*Assumes 0° roof pitch

Delivery time is approximately 8-10 weeks

**The installer is responsible for curb flashing material and installation of the curb to the roof.
Installer may want to consider the use of a water diverter above the longlight system when installed on a pitched roof.

Sub-construction
Sub-construction dimensions depend on the scope of the project

VELUX Modular Skylights Longlights are installed on a sub-construction made out of wood, steel or concrete. The sub-construction does not form part of the VELUX skylight solution and is not included in price. The individual details of each building's roof structure and load tolerances (statics) will vary from project to project.

For installation purposes, it is essential that the sub-construction should meet precise specifications in terms of dimensions, load-bearing capacity etc. VELUX product sheets and installation instructions for Longlights and Ridgelights contain detailed descriptions of each product and the relevant installation process.
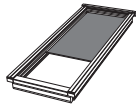

Remember to consult your local installer before choosing your solution, or else contact the VELUX Modular Skylights Support Team for further information and project specific details.

Timber
Timber remains the most flexible choice for creating a light and economical sub-construction with maximum energy performance.

Steel
Steel offers flexibility in combination with great strength. Steel also permits the application to be installed with the maximum amount of insulation.
Concrete
Concrete provides a strong, but heavy sub-construction, mostly suited for concrete buildings and are usually ca ast in-situ

More VMS configurations are available.

Commercial SUN TUNNEL™ skylights accessories

New

Open ceiling accessory roof trim ring *(ZTJ)*
Ideal for open environments without ceilings

Model number	14"	22"	Delivery
ZTJ	•	•	**S**

Daylight controller *(ZTP)*
Allows the user to control the amount of daylight that enters a room and is perfect for rooms that require room darkening. Requires a 24VDC power supply (VELUX ZZZ 233).

Model number	14"	22"	Delivery
ZTP	•	•	**F**
ZTP 0000P (Plenum rated)	•	•	**N**

Power supply for controller *(ZZZ 233)*
Power supply for VELUX SUN TUNNEL skylight light control devices.
Input voltage 110/227 vac
Output voltage 24VDC

Model number	$	Delivery
ZZZ 233	•	**F**

Insulating pane - thermal break *(ZTC)*
Insulating panes and thermal break for suspended ceiling (TTC) and open ceiling (TOC) applications to improve energy efficiency.

Model number	14"	22"	Delivery
ZTC 0401US	•	•	**T**

Diffusion enhancer *(ZTZ 209)*
Increase the diffusion capabilities of your VELUX SUN TUNNEL skylight. At times certain installations introduce challenges that can be resolved with the diffusion enhancer.

Model number	14"	22"	Delivery
ZTZ 209	•	•	**F**

Continental USA delivery guidelines	Delivery
In-stock at regional warehouses – Allow 2 to 4 business days for shipment.	**S**
Trans-shipped from central warehouse – Allow 7 to 10 business days for shipment.	**T**
Not stocked; Manufactured on demand – Allow approximately 32 business days for shipment.	**N**
Greenwood, SC and Sparks, NV regions ship in 2 - 3 business days, for all other areas allow 7 - 10 days.	**F**

A bulk purchasing program is available for the VELUX SUN TUNNEL™ skylights accessories

Additional installation parts for SUN TUNNEL™ skylights

Universal 45° elbows (ZTE 0000)
A durable and easy to operate elbow that can be used at the top, bottom, or middle of your installation. Multiple elbows can be joined together with rotating couplers to form a 90° bend or any other configuration needed to maneuver around tight spaces. 15" in length.

Model number	14"	22"	Delivery
ZTE 0000	•	•	S

Rotating coupler (ZTZ 211)
Easy to install tunnel and elbow coupler that enables quick tunnel connections. Rotating joints help align tunnel sections.

Model number	14"	22"	Delivery
ZTZ 211	•	•	S

Flex tube 12.5' long (ZTF)
Metalized reflective flexible tunnel that transfers daylight around obstacles and is the easiest tunnel system to install.

Model number	14"	22"	Delivery
ZTF	•	•	S

24" rigid tunnel sections (ZTR)
24" tunnel sections manufactured with the Flexi Loc™ tunnel connector system reduce tunnel installation time in half to deliver the highest quality daylight into the spaces below.

Model number	10"	14"	22"	Delivery
ZTR - 24" long (1 units)	•	•	•	S
ZTR - 48" long (2 units)	•	•	•	S
ZTR - 72" long (3 units)	•	•	•	S
ZTR - 144" long (6 units)	•	•	•	S
ZTR - 288" long (12 units)	•	•	•	S

Suspension wire kit (ZTZ 203)
Code compliant 12-gauge wire and fasteners to secure and support VELUX SUN TUNNEL skylights.

Model number	$	Delivery
ZTZ 203	•	S

Turret Extender (ZTA)
Flashing extender to raise the edge of the dome for increased protection and better performance in flat roof applications.

Model number	14"	22"	Delivery
ZTA 12 inch	•	•	F
ZTA 36 inch	•	•	F

Maximum security kit (ZTQ)
Crossing steel bars and security screws for VELUX SUN TUNNEL skylights to protect your commercial spaces

New

Model number	14"	22"	Delivery

Please call for pricing and availability: 1-888-878-3589

Curb
(To be built onsite)

Outside curb dimension
(including roofing and flashing material)

Provide <u>make size</u>
(Maximum skylight clearance)

Make size (W" x H")	Width 18 ¾ To 50 ¾
Height 18 ¾ To 72	Now delivered in 12 days or less
Height 72 ¼ To 76 ½	Now delivered in 20 days or less

We require maximum skylight clearance dimensions in ¼" increments (0, ¼, ½, ¾) for width and height.

Note: Custom size flashing kits and custom size blinds are not available.
Note: Some specialty glass options require longer lead times.

Bringing light to life™

Non-dealer disclaimer
List prices shown do not include shipping and handling cost, delivery cost by your local VELUX Dealer or applicable sales tax. Final unit pricing can be 10 - 15%+ higher depending on your location, services provided and final delivery of the skylight to the job site. Many of the skylights do not include flashings or blinds. These can be purchased separately.

All VELUX skylights, roof windows, SUN TUNNEL™ skylights, flashing kits and blinds must be purchased through a qualified VELUX dealer. Please see the "Where To Buy" section of veluxusa.com website for a list of VELUX dealers near you.

NOTICE: ALL GLASS MAY BE SUBJECT TO UNEXPECTED AND SPONTANEOUS BREAKAGE in rare circumstances due to imperfections in the glass that are undetectable during the manufacturing and inspection process by the manufacturer of the glass and VELUX.

VELUX offers the choice of laminated or tempered glass skylights. Impact glass and comfortplus glass are all types of laminated glass. Comfort glass is a type of tempered glass. Laminated glass is a combination of two or more glass sheets with one or more interlayers of plastic (PVB) or resin. In case of breakage, the interlayer is designed to hold the fragments together. Tempered glass does not contain an interlayer to hold the fragments together. Instead, tempered glass is designed to break into small, pebble-like pieces. When tempered glass breaks, pieces of glass come loose and may strike an individual.

CONSULT LOCAL REGULATIONS AND/OR BUILDING MATERIAL CONSULTANTS TO DETERMINE WHICH TYPE OF GLASS IS RIGHT FOR YOU OR IF LAMINATED GLASS IS REQUIRED IN YOUR APPLICATION.
